rent the St. Joan of Arc school building to establish this new residential program.

Based on 28-day cycles, Veterans completing the residential portion will receive aftercare and outpatient counseling, working with peer support specialists throughout the duration of the program and in family groups as needed. Our goal is to foster a vibrant community of Veterans and their families who support each other, and contribute to our community.

Protect us also from tornadoes, floods, extreme heat, and earthquakes. You are the Creator of this earth and the calmer of storms. Calm the storms around us and protect your people. Amen.

Veterans Recovery Resources is a new, community-based wellness program designed for the specific needs of Veterans. Their mission is to accelerate Veteran well-being by removing the barriers to mental health care and providing a unique recovery program for individuals who served in the military and their families suffering from substance abuse, post-traumatic stress, and other mental wellness issues. With the help of empathetic, specially-trained professionals, Veterans in our program can quickly begin the road back to healthier and more meaningful lives.

There are many barriers to seeking and receiving care for Veterans, but one of the largest is a lack of treatment options. There is currently no Veteran-specific residential program in Southwest Alabama. Veterans Recovery Resources will collaborate with the VA and all Veterans organizations to deliver the necessary services for our heroes.

Veterans Recovery Resources is honored to explore the opportunity to
